Skills

- Frontend
 - Angular
 - Typescript
 - Rxjs
 - Ngrx
 - Gsap
- Backend
 - Node JS
 - Express JS
 - Socket io
 - Sequelize
- Tools
 - Docker
 - Jest
 - Github actions
 - Figma
- Mobile
 - Flutter

Hobbies

- Tennis table
- Basketball
- Reading

Experiences

Netatmo

Frontend developer

Boulogne-Billancourt, France

January 2022 → Present

- Lead and contribute to multiple front-end projects (Velux, Muller, Vaillant, etc.) and drive continuous improvement of existing applications
- Actively participate in weekly meetings to foster discussions and idea sharing, while mentoring a trainee to develop their skills
- Developed a new version of an internal application API in PHP

Ophelia-Sensors

Frontend developer

Paris, France

May 2021 → August 2021

- Contributed to and developed the new showcase website
- Created various features in the web app:
 - Integrated OpenLayers instead of Mapper to display a map with Geocube
 - Developed a feature to download a PDF report of Geocube values

Projects
